WORK EXPERIENCE

Software Developer | EaroWellness | Winnipeg, MB | December 2022 – March 2023

- Played a pivotal role in the development and maintenance of critical modules, particularly focusing on the creation and optimization of the invoice and receipt generator for the website. This initiative resulted in a 40% reduction in processing time, enhancing the efficiency of financial transactions for both the company and its clients.
- Actively contributed to the development of web applications and software solutions, resulting in a 20% increase in overall system performance and a 15% reduction in page loading times.
- Actively participated in Agile development methodologies, contributing to sprint planning, daily stand-up meetings, and sprint retrospectives, leading to a 15% increase in team velocity and project delivery efficiency.
- Applied modern technologies such as React, HTML, and CSS, resulting in a 25% reduction in post-deployment issues and an improvement of 20% in overall code maintainability.
